

Professionals in Professional Vehicles

For a financial institution that knows professional vehicles and what it takes to purchase them, look to the Funeral Service Credit Union (FSCU) located at 215 S. Grand Avenue West, Springfield, IL 62704.

At FSCU, we specialize in providing competitive, flexible financing for funeral service vehicles. And, we have a unique understanding of the profession that helps us tailor our loans specifically for your business.

Like the funeral profession, FSCU focuses on service—we've served funeral directors with professional car loans for more than 20 years. In fact, we're proud to say that funeral homes in 48 states have taken advantage of our service. Today, we hold more than \$4 million in professional vehicle loans.

So why choose FSCU?

Incomparable Rates

We take pride in providing competitive rates that make sense for your business. Frequent loan rate specials provide even more savings—watch fscunet.org for details, and see the chart for our rates. (Note: Rates are subject to change. Always call FSCU for current rates.)

No-Fee Loans

Financing with FSCU means no loan servicing, application, or document preparation fees. You pay for your vehicle, not for our paper. Plus, we charge no fee for early payoff or extra payments—all of FSCU's loans are simple interest loans.

The Confidence of Confidentiality

We guarantee the privacy of all of our customers. Transactions approved by the loan officer and loan committee are done so anonymously, and we don't share your information with any party without your authorization. FSCU is governed by the same confidentiality laws that apply to every financial institution.

Funeral Knowledge

Our long history and experience with the funeral profession help us better serve your needs. That knowledge is important for vehicle valuation, a process often difficult for those with no experience with professional vehicles. Working with a reliable network of dealers, we examine current and future market trends to determine fair market value for both purchases and trade-ins, protecting your business and helping ensure your right to a fair deal.

Whether you're purchasing hearses, limousines, vans, flower cars, or removal vehicles, FSCU is the financial institution that knows you best and serves you best.
